

# Insurance Services

Weaver's Risk Advisory Services practice is made up of more than 70 dedicated professionals with significant experience providing services to the insurance industry. We offer our clients services such as internal audit outsourcing, IT audit and IT security reviews, enterprise risk management assessments, risk assessments (including fraud), technical statutory and GAAP accounting consultations, process improvement reviews, service organization control audits (SOC 1, 2 and 3), SOX consulting and Model Audit Rule implementation.

We are experienced in providing these services to P&C insurers, life & health insurers, public entity risk pools, agents/brokers, captives and third-party administrators.

## Weaver's Internal Audit Model:

Weaver professionals can also assist you in evaluating your SOX sustainability to help improve the internal control structure of your organization. A well-designed SOX program provides management with peace of mind that operating policies are being followed.

Our IT Advisory Services group has a depth of knowledge regarding business processes for private sector industries including insurance, financial services and technology. In addition to these advisory services, we also provide financial statement audits and a variety of tax services to insurance companies.
