## **Weaver Expands Family Law Forensics and Litigation Services with Key Hire, Brian Trampe**

HOUSTON, TEXAS (November 5, 2020) – National certified public accounting and advisory firm, Weaver, the 35<sup>th</sup> largest public accounting firm in the United States, has added Brian Trampe as a new director in the forensics and litigation services practice. Brian joins Weaver with more than 15 years of experience in litigation support, business valuation, due diligence and audit services with a focus in family law. He has assisted on more than 60 family law divorce cases to provide tracing, characterization, forensic and valuation services, and has served as an expert witness in multiple family law courts in North Texas.

Strengthening Weaver’s commitment to forensics and litigation services, Brian joins a team of professionals regularly engaged with leading family law attorneys throughout Texas to provide expert testimony for divorces involving marital estates of all sizes and complexity. Together, this team is highly skilled in supporting attorneys by providing insightful and unbiased financial analysis that assists with the equitable distribution of marital property.

“Brian’s background and solid reputation in forensics and litigation support services provide additional depth to Weaver’s robust team of family law professionals,” said Jared Jordan, Partner-in-Charge, Forensics and Litigation Services. “Our clients will benefit from his extensive experience and ability to offer comprehensive financial advice throughout all phases of a family dispute.”

“Weaver’s forensics and litigation practice is known for the ability to provide judicious and unbiased analysis in high-conflict family law cases,” said John Mackel, Managing Partner and Chief Executive Officer. “Brian’s addition to the team further builds on that expertise and underscores the importance of creditable expert testimony in delicate divorce proceedings.”

Brian is a certified public accountant (CPA); accredited in business valuation (ABV) and certified in financial forensics (CFF). He holds a Bachelor of Arts degree in economics from the University of Texas at Austin and a Master of Science in accounting and information management from the University of Texas at Dallas.
