**Are you prepared for your state to impose taxes or other compliance requirements? Weaver can help.**

State and local taxes pose complex challenges that businesses and individuals must deal with in an expanding global economy. States continue to change and expand regulations and rules. The complexity of compliance requirements that each state imposes can make staying current with tax obligations very challenging.

Weaver’s State and Local Tax (SALT) group advises clients on all types of state and local tax issues. Our dedicated team can help you navigate through state laws and regulations regarding registration and filing obligations, and advise and implement SALT planning strategies to save you tax dollars by reducing your overall state tax burden.

**Why SALT Services?**

Multistate taxation is complex and creates issues as a company expands or sells products or services to businesses or individuals in another state. Weaver’s SALT group provides specialized experience in state and local taxes and offers value-driven consulting services that help our clients realize significant tax savings.

Noncompliance of state tax rules and regulations can put a business or individual at risk for tax assessments that include interest and penalties. As state taxing authorities become more aggressive, businesses must stay informed to avoid any state tax pitfalls.

No matter what jurisdiction you currently or anticipate operating in, Weaver can analyze the tax impact of doing business in that state.

# Our Service Offerings

## Income and Franchise Tax Services

- ▶ Income tax consulting
  - Nexus studies
  - Public law 86-272 analysis
  - State tax due diligence
