Zeeshan Khan to Lead Weaver’s Growing SPAC Practice

HOUSTON, TEXAS (August 3, 2021) – National certified public accounting and advisory firm, Weaver, the 35th largest public accounting firm in the United States, is pleased to announce partner, Zeeshan Khan, CPA, as leader of the firm’s practice for Special Purpose Acquisition Companies, known as SPACs, or blank check companies.

“Zeeshan understands the pressures on SPACs and the intricacies that companies face when going public, which makes him the ideal person to spearhead Weaver’s SPAC initiatives moving forward,” said Alyssa Martin, CPA, National Strategy Leader, Large Market and Public Entities. “We are fortunate to have a team well-versed in the requirements for public companies so we can help clients meet the regulatory demands and investor expectations of the SPAC process.”

By leveraging the firm’s broad range of assurance, tax and advisory experience, along with a team of highly skilled professionals, Weaver’s SPAC practice has seen solid growth over the last twelve months as more companies utilize this alternative method to going public. Khan is committed to further building the service area with continued emphasis on assisting with the initial public offering (IPO), preparing a company to go public, conducting financial statement audits and internal audits, and advising on the de-SPAC activities.

“There are many benefits and challenges with a SPAC, and I appreciate the opportunity to speak with clients across the country to determine if a SPAC or going public is the right decision for them,” said Zeeshan Khan, CPA, Partner and SPAC Services Leader for Weaver.

“It’s also an honor to lead a practice that engages with each of the firm’s national strategy areas: public companies, private equity/middle markets and financial services.”

Khan joined Weaver in 2019 to expand the firm’s footprint in Oklahoma City. He has more than 15 years of assurance experience serving both public and privately held companies across a range of industries including oil & gas, manufacturing (industrial products) and retail. He is a Certified Public Accountant in Texas, California and Oklahoma.
