

Intellectual Property Services

Weaver's Forensics and Litigation Services practice has been providing dispute advisory and financial forensic services to our clients for decades. Our team has experience in a wide variety of disciplines and industries, and most have advanced degrees and at least one certification in areas such as accounting (CPA), financial analysis (CFA), fraud investigation (CFE), valuation (ASA, CVA, ABV), financial forensics (MAFF, CFF) and economics (Ph.D.) This depth of talent allows Weaver to assemble highly qualified teams to address the most complicated issues effectively and efficiently.

Litigation & Dispute Support

Intellectual Property Experience

Patents, trademarks, copyrights and trade secrets are often the most critical assets owned by an enterprise. Disputes involving IP infringement or misappropriation can make or break the future of the business.

Weaver's intellectual property experts have comprehensive experience related to the evaluation of damages involving patent, trademark, and copyright infringement and misappropriation of trade secrets.

Our professionals also have extensive experience valuing intellectual property to assist in negotiating reasonable royalty rates and for purchase price allocation related to acquisitions.

Weaver provides services and accounting support related to:

- ▶ Damages Analyses
 - Lost profits
 - Reasonable royalties
 - Diminution of value
 - Corrective advertising
 - Unjust enrichment
- ▶ Royalty audits
- ▶ Licensing negotiations
- ▶ Expert testimony
