

# HEALTH CARE SERVICES: DELIVERING VALUE BEYOND THE NUMBERS

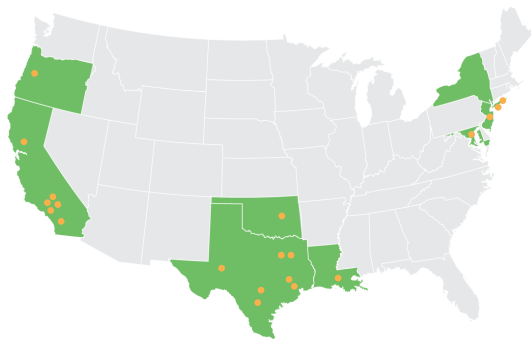

More than tax preparers, auditors and accountants — We're strategic business advisors helping you prepare for the future. We work closely with our clients to respond to changing requirements, plan for efficiency and prepare for the future.

- ▶ Top-35 accounting firm in the nation
- ▶ 21 locations in the U.S.
- ▶ More than 1,700 team members
- ▶ 800+ health care and related clients
- ▶ Best of the Best Firm 2023 (IPA)

"We engaged Weaver for a first-year audit and were extremely happy with the quality of service, value added through their expertise, communication and responsiveness and overall professionalism. I would absolutely recommend Weaver."

— Client Feedback Survey

## SUPPORTING HEALTH CARE CLIENTS FROM COAST TO COAST

## WEAVER KNOWS HEALTH CARE

In an industry facing constant market-driven, regulatory and clinical changes, disruptions to your operations can impact your ability to deliver services. With more than seven decades of experience providing a complete range of assurance and advisory services to health care clients, Weaver is able to leverage our firm's full breadth of knowledge and best practices to benefit your organization now and in the future.

## HIGH STANDARDS OF SERVICE: FOCUS ON HEALTH CARE

We regularly send out client satisfaction and feedback surveys to all clients to evaluate the delivery of our services. Our health care clients have rated us highly in two key areas:

### NET PROMOTER SCORE

If a client rates us a 9 or 10, they're strongly likely to recommend Weaver

### CLIENT SATISFACTION

# 99%

• data from the last three years

99% of our health care clients are satisfied with our services

## OUR RESOURCES DRIVE YOUR GOALS

Weaver's hands-on, relationship driven approach delivers impact and value beyond the numbers. We support the health care industry as standards change, guidance emerges and your priorities shift.

- ▶ **Buy-side and sell-side assistance** to protect your interests through objective and comprehensive due diligence
- ▶ **Valuation services** to assist with investor reporting and decision making
- ▶ **Proactive, value-added tax planning** to maximize federal and state planning opportunities
- ▶ **Accounting services** to help you reduce back-office costs and improve quality
- ▶ **HIPAA security services** to address common pitfalls involved in HIPAA compliance
- ▶ **Internal audit and business process improvement** to address critical risks and promote operational strengthening
- ▶ **Federal R&D tax credits** to help maximize your tax position during research and development
- ▶ **Assurance services** to help you comply with lenders, grant and other stakeholders

## WHERE WILL YOU FIND WEAVER?

As health care engagements often reach into secondary sectors, we hold the necessary experience where our clients are actively involved. This includes industry involvement throughout technology, real estate, government, manufacturing, distribution, retail and private equity.

## HI-ARC FOR HEALTH CARE

Weaver's new Hi-Arc accounting tool provides automated calculation of net revenue and accounts receivable journal entries for month-end close, along with easy visibility into that net financial data.

It saves you time and expense by turning a cumbersome, lengthy, spreadsheet-driven process into a few clicks. In addition to producing detailed results that let you drill down and see why charges are being rejected, this new system produces a dashboard with both current data and historical trends.
